SEDI AVERDE B.V.

# WELCOME!

Sediaverde B.V. is a wholesaler/importer of office chairs and was founded in 2017 with the aim of becoming a total supplier of seating furniture within the Dutch and European office furniture market. The company supplies exclusively and only to resellers of office furniture.

The start of the company began in Kerkrade. Here we started with a storage capacity of 1500 m<sup>2</sup>. At the start of the company, we had a limited range of office and conference chairs. Due to the increasing demand for other products, our product range has continued to expand.

In 2023, the company had its first move, at the location where it all started we soon ran out of space. Since early 2023, we have been operating from our current location (located in Herten) with a warehouse of around 3,000 m<sup>2</sup> and a showroom/office of around 1,000 m<sup>2</sup>.

Sediaverde supplies dealers located throughout Europe. Its main focus is on competitive prices, short delivery times, guaranteeing good quality, providing comprehensive service and, last but not least, delivering sustainable products.
