CATALOGUE

WELCOME!

Sedia Verde B.V. is a wholesaler/importer of office chairs and was founded in 2017 with the aim of becoming a total supplier of seating furniture within the Dutch and European office furniture market. The company supplies exclusively to resellers of office furniture.

The company started in Kerkrade. Here we began with a storage capacity of 1,500 m². When the company started, we had a limited range of office and conference chairs. Due to increasing demand for other products, our range has continued to expand.

In 2023, the company moved for the first time, as space quickly became scarce at the location where it all began. Since early 2023, we have been operating from our current location (based in Herten, the Netherlands) with a warehouse of approximately 3,000 m² and a showroom/office of approximately 1,000 m².

Sedia Verde B.V. supplies dealers located throughout Europe. In doing so, it focuses primarily on offering competitive prices, short delivery times, guaranteeing good quality, providing comprehensive service and, last but not least, supplying sustainable products.
